Surface	Base	Coverage	
Light powder, Groomed powder, Skied powder, Packed, Variable	Natural snow, Good, Firm, Man-made snow, Hard	Good in general (natural snow), Complete (man-made snow)	

COMMENT

Hello to all SUPERB CONDITIONS AND OUR SNOW COVER CONTINUES TO ACCUMULATE WITH VERY FREQUENT SNOWFALLS. 12 to 14 cm in the last 3 days, and you know what else is still to come today and tomorrow. The mid-season has begun. It's really time to come and enjoy it, and the weekend is shaping up to be super interesting with very pleasant temperatures. Conditions: Many of the runs were groomed by the crews last night and again this morning So, we're going to find both on man-made snow and natural snow runs; powder or powder mixed with granular snow in places on a firm to hard base For the runs that were left unworked and in the glades, it's going to be skied powder, deep snow still on the edges, all on a firm base that settles in the glades. So you can venture out without any problem and enjoy yourself. Changes are always possible after the patrol tour. During winter peaks, Mont SUTTON is proud to participate in the power demand management protocol by reducing electricity consumption on chairlifts II, IV and VII, as requested by Hydro-Québec. Therefore, schedule of the chairlifts this Thursday: I : 12:30 p.m. to 4 p.m. Magic carpet: 9 a.m. to 4 p.m. II W: 9 a.m. to 4 p.m. II: 9:30 a.m. to 4 p.m. IV: 9:30 am to 4 p.m. VII: 9:30 am to noon Chalet 400 (main) and 840 at the top are open with catering service. Tracks that have been groomed are displayed on the daily report to the main chalet or near the lifts. The alpine hiking trails are all open! Wishing you all a good day! See pictures of the day every day on flickr.com/montsutton Buy your ski tickets and Alpine Touring ticket online here or see all our promotions. And if you haven't already, sign up for our daily newsletter so you don't miss anything!
